VACCINE TRAINING FOR MEDICAL ASSISTANTS

PRESENTED BY

Virginia Chambers, CMA (AAMA), BS, MHA

Director of Health Sciences at Clackamas Community College

ABOUT THIS E-COURSE

The knowledge and skills of medical assistants widely differ as there is no standard vaccine training curriculum for Medical Assistant programs. This 1-hour e-course is designed for entry-level medical assistants.

LEARNING OBJECTIVES

- 1 Explain the importance of proper storage and handling of vaccine and list key equipment requirements.
- 2 Summarize forecasting and locate the most up-to-date vaccine schedule for adults and pediatrics.
- 3 Describe the common errors related to vaccine administration.
- 4 List the seven rights of vaccine administration.
- 5 Describe best practices for administering subcutaneous and intramuscular vaccine to adults and children.
- 6 Describe the relationship between trust and professionalism as it relates to patient experience.

REGISTRATION & FEES

This eLearning course is **FREE** of charge; however, registration is required.

CONTINUING EDUCATION CREDITS

AAMA: This program has been approved by the American Association of Medical Assistants (AAMA) for 1.0 continuing education unit through July 8, 2025. Granting approval in no way constitutes endorsement by the AAMA of the program content or the program provider.

Certificate of completion available after the completion of the course.

FUNDED BY: WASHINGTON STATE DEPARTMENT OF HEALTH
